exchanging experiences and new techniques and methods during numerous interdisciplinary workshops. Every participant can attend and lead any of the presented workshops. During the evenings, the participants can attend innovative conferences, with various themes. Year after year this has proven to be a nurturing week, energizing every participant, inviting them to meet, to share, to grow... and to have fun.

## THE VENUE:

[‘Domein-Westhoek’](#) in Oostduinkerke (Belgium)

Every year the congress takes place in a different country integrating its cultural and spiritual aspects. It is residential, creating a special surrounding of connection, contributing to personal and collective evolution. Therefore the venue is always situated in a supporting, natural setting.

This year, a precious spot was found at the Belgian coast. The name of the hotel is "Domein-Westhoek" literally translated it means "domain at the westcorner" and it is situated in the north-west part of Belgium at some 15 km from the border with France and at a 50 kilometers from the ferries of Calais.

The hotel is at a 10 minutes' relaxed walk from a white sand beach, softly sloping down into the sea. Although the hotel is very close to urban touristic accommodations, it is completely surrounded by nature, a parc and even with dunes belonging to the hotel.

The 'backyard' area of the hotel was the battlescene of two Worldwars, a special area with multiple landmarks, where brave people of all continents sacrificed their lives and which offers to all participants involved, an opportunity to heal those memories and energies. We are on the verge of a different society, a new emerging consciousness. Lets do it together. Lets be a part of this new humanity and call it NEWMANITY!
